

Prisons in Europe 2005-2015

Volume 2: Data

Marcelo F. Aebi
Léa Berger-Kolopp
Christine Burkhardt
Mélanie M. Tiago

Lausanne, 30 June 2018 – Updated on 29 November 2018

This study has been written by Marcelo F. Aebi, Léa Berger-Kolopp , Christine Burkhardt, and Mélanie M. Tiago on behalf of the Council for Penological Cooperation (PC-CP) of the Council of Europe, Strasbourg, France.

The study has been prepared under contract N° 264/2016 (Research projects based on SPACE I and SPACE II) with the *Action against Crime Department, Information Society and Action against Crime Directorate, DGI - Directorate General Human Rights and Rule of Law* of the Council of Europe. It has also received support from the University of Lausanne, Switzerland.

Country based information on penal institutions and prison populations was collected through questionnaires sent to the Prison Administrations of the member States of the Council of Europe. The information collected was analysed by the authors of this study. In addition, during the preparation of the study, three validation procedures were applied: internal, cross-national and peer-review.

The responsibility for the content of this study lies with the authors, and the content does not represent the views of the Council of Europe; nor is the PC-CP responsible for any use that may be made of the information contained herein.

Part 4. Absolute numbers, percentages and rates

This section presents the absolute numbers received from the Prison Administrations of the 47 member States of the Council of Europe, as well as the rates, ratios and percentages estimated by the authors of this study on the basis of those numbers. The first version of the database was established on the basis of the data received from the Prison Administrations for each annual SPACE survey. It was then completed with the data provided by the national correspondents that participated in this study. When no data were provided, the authors consulted other sources such as Eurostat and Prison Studies (historically hosted at King’s College and currently at prisonstudies.org), as well as our highly appreciated colleague Roy Walmsley. When only one or two years were missing, the figures were interpolated on the basis of the data provided for the rest of the series. The modifications to the original database were highlighted according to the information provided in the following Table:

Table 4.1. Explanations of the colours and sources used in Part 4 of this study

	Data in orange - source: http://www.prisonstudies.org/country/
	Data in purple - source: “King’s College” Website
	Data in blue – source: Eurostat
	Data in red – data provided by Mr Roy Walmsley
	Data in green – data is not consistent with the results of the remaining years
	Data not asked in the SPACE survey
	Missing data
	Interpolation
	Interpolation when the answer was NA, NAP, or ***
	Estimation based on the proportions observed in previous years
	Cross-reference
	New data provided by the national correspondents for this study
	Calculations made by the authors

Note: Specific legends were used in the cases of Greece and Slovenia and are explained in the respective Tables.

Albania – Absolute numbers

Year	2005	2006	2007	2008	2009	2010	2011	2012	2013	2014	2015
1.0. Total number of inmates (including pre-trial detainees)	3.425	3.884	4.554	4.857	4.482	4.750	4.772	4.890	4.998	5.440	5.981
2.0. Total capacity of penal institutions (capacity foreseen for all the inmates included in item 1.0)	3.291	3.341	3.754	4.166	4.340	4.417	4.417	4.417	4.537	4.537	4.999
